Study the Investment Highlights and decide for yourself!

INVESTMENT HIGHLIGHTS:

- **GROWTH:** In the next 24 months, we anticipate revenues for PJTG to be approx. \$26M. However, considering the enormous size of this market and economic factors causing businesses to improve performance via streamlining technological solutions to enhance profitability, PJTG has the potential to far exceed our expectations.
- **HUGE MARKET:** PJTG's key markets in configuring and installing Microsoft Project 2002 is, conservatively, a \$3 Billion dollar services market. In fiscal 2003, Microsoft will sell approx. \$600M worth of Microsoft Project 2002. PJTG's experience has been that the services required to support the software are between 5 and 10 times the software cost, which reflects how conservative a \$3B market really is.
- **MICROSOFT PREFERRED PROVIDER:** PJTG is a part of Microsoft's Premier Group in this Preferred Provider Status. This is obvious when you look at their incredible client base... Wal-Mart, Univ. of TX Health Science Center, Waste Management, AIM Funds, Inc, EDS, Halliburton to name a few.
- **TRACK RECORD:** to PJTG has over 35 successful Microsoft Project 2002 Implementations and 5 more in progress. No other firm except for PJTG has managed to accomplish such a record, which is why they have been awarded the "Gold Certified Partner" status. This makes PJTG a "Managed Partner" in the Southern Region and all of Microsoft Project 2002 leads flow through them.
